NEWS

NATIONAL / LOCAL

utstv BLACK NEWS YOU CAN USE!

Nielsen research has shown that Black audiences are driving demand for content that represents their identity on screen, and Black-owned media plays a crucial role in providing this type of representative content to the diverse Black community. However, despite reaching 27% of Black viewers, Black-owned outlets have not always been included in media plans designed to reach Black consumers.

Since 2020, brands and advertisers have recognized the importance of Black-owned media as an integral missing piece in their efforts to not only reach, but also advocate for Black communities.

LOCAL **REGIONAL** **NATIONAL** **GLOBAL**

BLACK NEWS YOU CAN USE!

Urban Trendsetters aims to team up with over 100 Black-owned newspapers, radio stations, and digital outlets to produce a daily national/local news program. The objective is to offer a platform for Black-owned media outlets to expand their reach and generate new revenue streams for their businesses.

At Urban Trendsetters we value collaboration over competition. We know that these outlets are valued in their own communities and know the leaders, movers, and shakers in their communities. We will bridge the gap between Black communities locally and then nationally.
